Docket No. 98N-1265 99 APR 27 PT 47  
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Years ago I tried regular birth control  
medication - my system could not tolerate these  
synthetic drugs.

When I learned of the only pharmacy compounding  
natural hormones - I knew this was my answer.  
Taking natural compounded hormones turned  
my life around - my world is brighter & more  
focused. My husband appreciates this also.

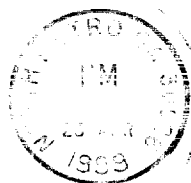

These people were the only ones concerned  
with the quality of women's lives.
